

SCAHPERD 2022 Research Poster Session
Call for Work-in-Progress Poster Session
Deadline for Abstract Submission: October 31, 2022

The SCAHPERD SCAPES Higher-Ed committee is pleased to announce the 2nd annual Work-in-Progress poster session. This session will offer researchers an opportunity to share research in its formative stages with higher education faculty and content experts across health physical education, recreation, and dance fields to exchange ideas with colleagues, and to obtain feedback in an informal setting. Student presentations will have the opportunity to be scored by SCAPES members and the top presentation will receive the student research award.

Eligibility: Researchers who are interested in a collegial exchange of ideas related to their current research projects are encouraged to submit posters. Undergraduate and graduate research projects will be eligible to compete for the top research project. All presenters are required to register for the SCAHPERD Conference. There is no waiver of the registration fee for presenters who are selected as a result of the review process.
